01	Develop a personal digital portfolio to showcase your skills, projects, and achievements. This project will help you demonstrate your web development skills and creativity in designing and structuring a professional portfolio. Requirements: - Portfolio Structure: - A homepage that introduces you and your portfolio. - A projects page showcasing at least 3 projects (real or hypothetical) with descriptions and links. - An about page with your bio and skills. - A contact page with a contact form (does not need to be functional).	15	3	

	2. Design Elements: ○ Use responsive design to ensure the portfolio looks good on desktop, tablet, and mobile devices. ○ Include at least one navigation bar for easy access between pages. ○ Use consistent styling across all pages (e.g., fonts, colors, spacing). 3. CSS Features: ○ Utilize external CSS for styling. ○ Include at least three different CSS properties, such as grid/flexbox, hover effects, or transitions. ○ Use a media query to adjust the layout for smaller screen sizes. 4. HTML Features: ○ Use semantic HTML (e.g., <header>, <footer>, <section>, <article>). ○ Include proper use of tags like , <a>, , <h1>-<h6>, and <p>. 5. Content: ○ Use placeholder text and images if real content is unavailable. ○ Write meaningful descriptions for your projects and skills. 6. Deployment: ○ Deploy your portfolio on a platform like GitHub ○ Provide a live URL and the source code repository link.			
	Submission Guidelines: • Submit the pdf / live URL and the GitHub repository link • Ensure your Digital Portfolio is fully functional before submission.
